

PERMIT CHRONOLOGY
for

W. K. Enterprises
Standard I
S/037/005 (a.k.a. M/037/005)
(January 29, 1996)

December 1, 1978	Declaration of Exemption (DOE) filed by Atlas for Frazer Tunnel, located in SE/4 SW/4 Section 11, T30S, R24E. A small operation will soon commence.
December 6, 1978	DOGM acknowledges DOE.
February 28, 1979	MR Form 2 and MR Form 8 for Frazer Tunnel, M/037/005, received from Atlas on unpatented mining claims. Disturbances prior to 1975 include: adit entry portal, ore bins, development rock stockpiles, shop, compressor, dry and office buildings, abandoned mine track and cars. Reclamation will include sealing the Frazer Tunnel, removal of all extraneous debris, scrap metal, discarded wood and unusable buildings. Surface drainage contours will be established to prevent water ponding. All areas will be seeded using the specified seed mix.
August 1, 1979	Inspection of Frazer Tunnel site, a.k.a. Standard #1, was performed.
November 26, 1979	Letter to Atlas encouraging continued permitting efforts on nine mines which have not yet been approved.
February 3, 1982	Received annual report for 1981 activities.
February 4, 1982	DOGM acknowledged receipt of annual reports.
November 12, 1982	Public Notice of Tentative Approval for 21 Atlas mine sites.
December 8, 1982	Letter to Atlas describing mine plan comments to be addressed prior to final approval being granted on five mine permit applications.
January 6, 1983	Received Atlas letter with revised reclamation cost estimates for 21 mine sites.
January 7, 1983	Atlas notified DOGM of temporary suspension at Standard I and Happy Jack mines.
January 14, 1983	Atlas letter responding to DOGM comments of 12/8/82.
January 27, 1983	Letter to Atlas describing the interim reclamation measures to be taken at seven mine sites listed.
January 28, 1983	Letter to Atlas with summary of costs for reclamation work agreed upon by Atlas and DOGM during January - February 1983.

February 4, 1983	Memo to file documenting site inspection of 1/20/83. Site is located directly south of the MiVida mine.
August 30, 1983	Atlas letter to DOGM stating interim stabilization measures requested have been completed at five of the seven mines.
September 13, 1983	DOGM letter acknowledging interim measures completed.
September ?, 1983	Copy of Atlas Minerals proposed procedures for sealing boreholes, shafts and portals.
January 27, 1984	Letter to Atlas granting final approval for the 21 mine sites.
February 8, 1984	Request for annual report sent to Atlas.
February 24, 1984	Received annual report for 1983.
January 8, 1985	Request for annual report sent to Atlas.
January ?, 1985	Received annual report for 1984.
January 17, 1985	Letter to Atlas acknowledging receipt of annual reports.
??/1986	Received annual report for 1985.
January 6, 1987	Letter to Atlas waiving annual report requirements for 1986 for 20 mine sites (listed). The temporary suspension status has elapsed. DOGM proposes additional reclamation and interim stabilization measures for 19 Atlas sites.
January 21, 1987	Atlas letter stating no mining or reclamation was performed during 1986 at the 20 mine sites listed.
June 5, 1987	File memo documenting DOGM inspection of 6 Atlas sites on May 21, 1987. The Standard I mine is located on the steep valley wall across the road from the McCormick mine and just downhill from the MiVida decline.
??/1988	Received annual report for 1987.
January 27, 1988	DOGM memo summarizing bonding requirements for seven Atlas sites proposed to be transferred.
August 4, 1988	File memo documenting site inspection of August 2, 1988. The inspection was made to evaluate the bond estimate and discuss the permit transfer from

Atlas to W. K. Enterprises (Bob Shumway and Gary Shumway). A portion of the site was recently reclaimed by W. K. Enterprises. Remaining reclamation includes removal of mine facilities and ripping and seeding of site. Total disturbance is now 4.25 acres. This reduces this operation from a large mine status to a small mine status.

August 9, 1988	Permit transfer forms sent to Bob Shumway, W. K. Enterprises.
August 18, 1988	Board memo requesting tentative approval of form and amount of surety. Tentative approval is requested because the revised bonding forms are not yet in place; therefore, final approval cannot be granted at this time.
September 1, 1988	Letter to W. K. Enterprises stating permit transfer is tentatively approved with two conditions: 1) W. K. Must complete a Small Mining Operation Notice of Intention (NOI-SMO); 2) more precise legal descriptions must be provided.
September 26, 1988	Letter acknowledging receipt of NOI-SMO on September 14, 1988. The Notice is complete.
September 29, 1988	Second DOGM letter acknowledging receipt of complete NOI-SMO and designating new file number as S/037/005. NOTE: Old file number was M/037/005.
October 5, 1988	DOGM letter to BLM Grand Resource Area stating bonds for sites disturbing less than five acres are being released (Dunn Mine and Standard I Mine). Both mines were transferred from Atlas to W. K. Enterprises (as small mines).
February 8, 1989	Request for annual report.
February 24, 1989	Annual report for 1987-1989 received.
January 5, 1990	Request for annual report.
January 16, 1990	Annual report for 1989 received.
December 31, 1990	Request for annual report.
June 21, 1991	Second request for 1990 annual report.
July 22, 1991	Received one annual report form listing five file numbers and five mine names.

November 22, 1991	Received copy of 11/20/91 letter to Unocal Land Acquisition Department from Williams, Turner and Holmes, P.C. (Law firm) representing Wilene Shumway, doing business as W. K. Enterprises. Unocal is advised that oil and gas drilling in close proximity to W. K.'s mining activities may adversely affect underground mining.
December 9, 1991	Received copy of 12/4/91 letter from Unocal to W. K. Enterprises requesting information to evaluate potential impacts caused by their operations.
January 10, 1992	Received copy of 1/6/92 letter from Williams, Turner & Holmes, P.C. to Unocal, describing reasons for concerns with poisonous gas occurrences at MiVida and Big Bucks mines. More specific location information will be provided.
January 14, 1992	Request for 1991 annual report.
January 4, 1993	Request for 1992 annual report.
December 20, 1993	Request for 1993 annual report.
March 9, 1994	Received annual report for 1993.
February 16, 1995	Second request for 1994 annual report.
December 15, 1995	Request for 1995 annual report.
January 18, 1996	Received 1995 annual report - stating mine was never worked by Bob Shumway. Wilene Shumway does not even know where this mine is! Husband Bob is deceased.
January 22, 1996	Gary Shumway telephoned to request information describing the Standard I mine site and the reclamation remaining to be completed.
January 23, 1996	Fax to Gary Shumway of copies of two inspection memos which describe the site and reclamation required.
